2023 IMPACT REPORT

SERVING OUR
COMMUNITY &
INSPIRING CHANGE

OUR TEAM VALUES

OUR VISION

Increasing Levels of Community Trust

OUR MISSION

Deliver compelling marketing and communications to show how the institution advances medicine by improving patient health, training future caregivers, and conducting life-changing research to benefit families and communities in New Mexico and beyond.

OUR FIVE VALUES

DEDICATION TO PROFESSIONALISM COLLABORATION & CREATIVITY KINDNESS & COMPASSION FORWARD THINKING & FORWARD MOVING INTEGRITY & HONESTY, ABOVE ALL

STRATEGY TO ACHIEVE OUR VISION:

All team members are engaged and united in spirit with resources aligned to achieve continuously increasing levels of awareness and trust in UNM Health and Health Sciences.

OUR PROMISES

TO MY **COLLEAGUES** I PROMISE:

Transparency, respect, support, and collaboration as we work to advance our team.

TO OUR **COMMUNITY**

I PROMISE TO:

Tell compelling, authentic stories of how health care workers, teachers, researchers and learners improve the health and lives of those we serve.

TO **MYSELF** I PROMISE TO:

Strive for creative, forwardthinking solutions, to continually learn and grow and approach problems as opportunities for myself and my team.

A HUGE THANK YOU TO OUR ENTIRE MARKETING AND COMMUNICATIONS TEAM FOR YOUR DEDICATION AND VALUABLE CONTRIBUTIONS TO THIS REPORT. YOUR HARD WORK AND CREATIVITY HAVE TRULY MADE A SIGNIFICANT IMPACT THROUGHOUT THE PAST YEAR.

OVERALL OBJECTIVE

Demonstrate the value that UNM Health delivers. Remind Albuqueque and the state about the unique services and consistent performace excellence we deliver; so that voters, patients, and legislators will conclude that UNM Health is part of the fabric of our state and vital to the health and well-being of New Mexicans.

TOTAL DIGITAL AD **POSTINGS IN 2023**

SPOTLIGHT ON UNM HEALTH CHILDREN'S CARE CAMPAIGN

The strategy of this campaign was to remind voters and the community that UNM Health offers the only dedicated children's hospital in New Mexico with 13 unique specialties. The Children's Hospital was in the market from September - January 2023 and included media for outdoor, radio, television, and print.

EARNED MEDIA

From March 1, 2023 - February 12, 2024, Critical Mention has assigned the following metrics for the UNM Children's Hospital:

MENTIONS BY MEDIA TYPE

SOCIAL MEDIA/DIGITAL MARKETING

PAID ADS THROUGH GOOGLE AND META

Including Facebook, Instagram and Youtube

In the past year, our creative team delivered 22 distinct services seamlessly across 14 individual departments. Our team successfully brought countless projects to life and developed creative solutions in a dedicated effort to increase trust in UNM Health and Health Sciences, and help further community engagement.

NEWSROOM CONTENT STRATEGY

The strategy of the UNM Health and Health Sciences Newsroom is to tell clinical, research and academic stories in a compelling and meaningful way. And also to create engagement with our community, our internal audience and news media. To do this, our team continues to explore new ways to tell our story through print, strong photo and video, and social media.

A RECORD BREAKING YEAR IN SOCIAL

In the spring of 2023, UNM Health's TikTok video showcasing the various scrub colors at UNM Hospital and their respective job associations broke the record as our most engaging post of all time. The video garnered an impressive 1,166,024 views on TikTok, establishing itself as the highestviewed content in the record books on the platform (527,377 was the previous record, 45.2% increase).

In the year 2023, primary social media accounts reached a remarkable milestone by accumulating a total of 6,607,046 video views. This achievement not only surpassed the record set in the previous year but did so with an extraordinary increase of 286%, illustrating the substantial growth and impact across digital platforms. This surge in video views is a testament to the continued success and expanding reach of our social media efforts. (Video views in 2022 = 1,709,635)

2023 COMMUNICATIONS PROGRAM REPORT

MEDIA RELATIONS PROGRAM

2023 STRATEGY

Our media relations strategy in 2023 was tied to a number of goals:

- Increasing awareness and enhancing the reputational standing of UNM Health and Health Sciences' units, programs, missions, research, achievements, providers, faculty, staff, and students.
- Solidifying UNM Health and Health Sciences as New Mexico's premiere health care authority on any and all health care related information.
- Ensure that all communication strategies complimented and supplemented paid marketing efforts.
- Increasing academic standing and reputation, particularly in the areas of health sciences research and academic achievements.
- Ensuring content created for the HSC Newsroom is spread through the media relations program.

MEASURING SUCCESS

2023 Health/Health Sciences Mentions

This chart signifies all of the news media mentions for 2023 as captured by UNM's paid service Critical Mention. As a measurement of this program's success, we look for three key indicators:

- 1. **Publicity Value:** The media captured in this report was earned, meaning UNM did not pay for these mentions. However, if we had paid for this media, the publicity value assigned by Critical Mention tells us what that would have cost. 2.
- 2. Audience: This measurement tells us the potential audience that was reached over time. This number should not be interpreted as the exact number of people who were exposed to a news media story about UNM, but rather the audience who had the chance to hear the mention.
- **3. Mentions:** This measurement is a raw number of times a UNM Health and Health Sciences unit, program, or story was in the news.

Since this is the first year using Critical Mention as a media clipping service, and 2023 is the first full year of an integrated marketing and communications team, we propose 2023 is our baseline to which we measure metrics year over year.

We can also measure our success in this program in a few other ways. For example, partnerships with our local TV, radio, and newspapers outlets from the state are critically important to fostering positive and trusting relationships. From May – June 2023, a partnership brokered by MarCom created an 8-part series focused on pediatric care at the UNM Children's Hospital with KOBTV. In this series, Anna Duran, MD, Associate Chief Medical Officer at UNMCH, appeared live each Monday morning in the 6am hour of KOB-TV's highly rated morning news program. In this series, Dr. Duran and anchor Danielle Todesco spoke about healthy eating

habits for children, mental wellness, summer safety tips, allergies, and a number of other health related items that are beneficial for parents.

2024 STRATEGY

Going into 2024, goals created in 2023 will carry over, with additional refinement and focus. Because Bernalillo County voters will vote to extend UNM Hospital's mill levy in November, the media relations program will largely focus om ensuring this group of voters understand and a ppreciate the many UNM Health's clinical enterprise makes their community safer and healthier. Additionally, the communications team will work in extra alignment with the marketing and social media divisions so that content created can cross pollinate across traditional news media and geo-targeted social media.

We're extending media partnerships including one that is extremely lucrative for UNM Health. For more than 40 years, Dr. Barry Ramo has been KOAT-TV's medical expert. As he looks toward retirement, we've brokered an agreement that replaces Dr. Ramo with Abinash Achrekar, MD, a cardiologist in the UNM Health System and the Vice Chair of Medicine at the School of Medicine. Each week, Dr. Achrekar tapes three

segments in KOAT's studio where he offers health advice on various topics.

HSC NEWSROOM CONTENT DEVELOPMENT PROGRAM

2023 STRATEGY

The strategy of the UNM Health and Health Sciences Newsroom is to tell the clinical, research and academic stories of UNM Health and Health Sciences in a compelling and meaningful way to create engagement with our community, our UNM Health and Health Sciences audience and news media. To do this, our team continues to explore new ways to tell our story through print, strong photo and video, and social media.

MEASURING SUCCESS

This chart reflects page views of the HSC Newsroom month over month in 2023. Of note, total views from Jan. and part of Feb. 2023 are not complete due to analytics migration issues.

The following is the story count by HSC Newsroom contributors month in 2023:

January:	23
February:	23
March:	29
April	18
May	19
June	20
July	11
August	17
September	24
October	21
November	18
December	15

Total: 238

NEWSROOM METRICS BREAKDOWN:

The HSC Newsroom experienced significant staff turnover in 2023 with both content creators and newsroom leadership. Despite those challenges, except for a dip in July, content creation remained consistent. The newsroom published a total of 238 stories last year which averages out to about one story every business day of 2023.

In addition, the average views of newsroom stories per month remained high (between 18,000 to 25,000 views from February through August). In September, the content development team had a new newsroom team in place with a focus on patient-centered, visual storytelling; incorporating compelling and impactful videos alongside print stories featured on the HSC Newsroom site.

During the last few months of the year, the new team also worked more collaboratively with our social media team to strategize new ways to showcase stories through our various platforms (HSC Newsroom page, Facebook, Instagram, LinkedIn, and TikTok).

SOCIAL MEDIA METRICS:

- 347 Total Newsroom related social media posts
- 397,000 Impressions
- 23,900 Engagements (reactions, comments, shares, clicks)
- 4,800 Link Clicks (Facebook, LinkedIn, X (Twitter) only)

SOCIAL MEDIA METRICS BREAKDOWN

The high number of impressions (397,000) suggests that the newsroom content is reaching a significant audience, contributing to brand visibility and awareness.

The engagement rate, as indicated by reactions, comments, shares, and clicks (23,900), demonstrates that the audience is actively interacting with the content. A higher engagement rate often signifies content relevance and resonance with the audience. The engagement rate is approximately 6.03%, which generally is considered a good engagement rate for social media content. Industry benchmarks may vary, but a rate above 3-5% is often seen as positive. This suggests that a significant portion of the audience is actively interacting with the newsroom content, which is a positive indicator of engagement. The substantial number of link clicks (4,800) is a positive sign, indicating that users are not only viewing but also taking action by clicking on provided links. This could be indicative of effective call-to-action strategies and compelling content.

In summary, the analytics suggest a strong performance in terms of reach, engagement, and user actions, reflecting a successful strategy with social media and the newsroom.

TOP 10 STORIES

(based on combined engagement from HSC Newsroom site and social media)

- UNM Researchers Discover Cholesterol-Lowering Vaccine
- UNMH Employees Save Bicyclist
- Teen Shooting Victim to Become Nurse
- UNM Research: Contaminated Drinking Water
- ICU Nurse Receives Award
- UNM Health Expands Gender-Affirming Health Care
- Mountain Medicine
- UNM Researchers: Knee Arthritis Treatment
- UNM Researchers: Wildfire Smoke
- Mountain Medicine
- UNM College of Nursing Midwifery Grant

NEWS MEDIA STRATEGY

The HSC Newsroom Content Development team also evolved strategies to increase national and local news media pickup. Those strategies have included creating engaging newsroom stories ahead of an event to draw interest as well as creating separate video and sound packages that we send directly to news media to use immediately (vs. scheduling separate interviews afterwards). That continues to prove successful including over the winter holiday break with media airing and re-airing a single positive story about an SRMC employee a total of 10 times.

2024 STRATEGY

STRATEGIC CONTENT CREATION PLANNING/EXECUTION

A big goal in 2024 is to focus on strategically creating content that aligns with our mission areas: clinical, research and academic stories. This will involve prioritizing projects/events ahead of time and creating a decision tree to help determine which additional stories and projects we should take on. For example, in 2024, the UNM Hospital mill levy vote will be a strategic priority for the newsroom. Our team will work on a plan to create a consistent cadence of stories highlighting the important work and services happening at the hospital and across the health system. Another key focus for our clinical areas will be quality improvement. We've already had ongoing conversations with UNM Hospital CEO Kate Becker and UNM Hospital Chief Quality and Safety Officer Rohini McKee, MD, and are working on developing storylines in this area.

We would also like to be more strategic on the execution of our news stories. That will involve considering timing of publication, focusing on our audience, and bringing in our social media team for additional support and ideas. We will also be breaking traditional format when telling stories, incorporating things like Q&As, fact boxes that break down complex information, and experimenting with new ways to tell our video and photo stories.

Additionally, we will be creating a system to track the number of stories we are doing each month that tie to our clinical, research and academic mission areas to ensure we are consistently covering each area.

TELLING OUR RESEARCH STORY

Research is an area we recognize as an opportunity to grow within our new team. We also know this is a priority for UNM Health & Health Sciences leadership. Our goal starting

in 2024 is to publish at least one research story a month. The hope is we can generate enough content so we can eventually create a tab exclusively for research on our website, and always have stories up to date in that category.

To achieve this, we plan to network regularly with key researchers within UNM Health and Health Sciences. The work to identify these key researchers has already begun. Our team has a comprehensive contact list; the next step will be to make sure those contacts know our team and we create consistent touchpoints to ensure we are in-step with significant research happening across UNM Health Sciences.

We are also working to refine the way we tell our research story. To make this form of content-which can be complex- more digestible for readers of diverse audiences, we will include summaries or bullet points to break down the science at the top of each article. We will also encourage researchers to break down their work into 60 seconds so that it's easier to understand for mass communications and can also be shared by our social media team.

CONTINUE TO EVOLVE SOCIAL MEDIA COLLABORATION

The relationship between the HSC Newsroom and our social media team continues to grow and evolve. In 2024, our team will engage our social media team in weekly conversations about upcoming content and the best and unique ways to get our stories out to a broader audience. We'd like to continue discussions with the HSC Social Media Manager about the UNM Health & Health Sciences YouTube page and how we can more effectively use the platform to showcase the incredible videos being produced by our team.

HSC NEWSROOM WEBSITE REDESIGN

At the end of 2023, our content development team put significant focus on researching best practices from top U.S. academic health institutions when it comes to their newsroom sites. Taking into consideration those practices, our team's storytelling strengths and aligning both with our mission areas and strategic goals, we came up with a new website design we believe will be more effective. Moving into 2024, we're looking forward to working with UNM's web team, marketing team and leadership to make progress on a website that, like our newsroom strategy, tells the clinical, research and academic stories of UNM Health and Health Sciences in a compelling and meaningful way to create engagement with our community, our UNM Health and Health Sciences internal audience and external news media.

EXECUTIVE COMMUNICATIONS & SPECIAL PROJECTS PROGRAM

2023 STRATEGY

This program has largely been formalized in 2023 and continues to evolve. From January- May, Michael Haederle was largely responsible for executive-level communications directly supporting Doug Ziedonis, MD, MPH, Executive Vice President of UNM Health Sciences and CEO of the UNM Health System. However, upon Haederle's retirement the responsibilities fell to the Communications Division. At the time, the team strategized how to formalize this program to ensure Dr. Ziedonis was sufficiently supported for all communications needs.

At the time, the EVP/CEO Events Smartsheet was launched following multiple brainstorming sessions with staff in the EVP/ CEO office to better track the EVP's internal and external events and communications needs. This was a new way for MarCom to work together with the EVP/CEO office to ensure Dr. Ziedonis has what he needed for various events he was asked to speak

at and attend. The goal for this new way to collaborate is to stay on top of upcoming events, reports, and speeches as needed. Also implemented are weekly meetings with EVP/CEO office staff to review current and new requests as well as weekly meetings with Dr. Ziedonis to discuss upcoming items, ask questions, review slides and ensure Dr. Ziedonis has what he needs to be successful. In addition, we formalized weekly communications meetings with Dr. Ziedonis so that we had a set time to discuss any and all communications matters. We also changed the cadence of Dr. Ziedonis' communications from quarterly to weekly to the Health and Health Sciences community to increase his visibility and help keep that audience informed of important announcements.

MEASURING SUCCESS

Since this program started tracking duties and responsibilities associated with supporting Dr, Ziedonis, MarComm has assisted/supported more than 115 EVP/CEO events and messages. They include the following:

Town Halls: 10 Convocations: 9 Legislative events: 10 Internal meetings: 40+ 8 Donor events: 3 Media Interviews: 12 Board reports: 12 Listening tours: Other external events: 4

THIS PROGRAM COORDINATED, SUPPORTED, AND PARTICIPATED IN 32+ EVENTS:

- 2 UNM Hospiatl Diaper Drive at Men's and Women's Basketball games
- 10 Town Halls covering strategic planning, College of Nursing Dean candidates, DEI climate assessment survey
- 6 Webinar/News conferences for DEI Black History month, UNMH LEADing to Excellence, MDC/ UNMH Partnership press conference, Fall/Winter respiratory illness news conference, NM Sex and Gender Minority Health Summit
- 2 UNM Office of Research events honoring HSC faculty
- 7 Internal department meetings
- Groundbreaking event for Crisis Triage Center
- Ribbon cutting for Neurology/Senior Health Clinic
- Topping ceremony for CON/COPH building
- 2023 Balloon Fiesta tent
- 2023 Balloon Fiesta donor events

THIS PROGRAM COORDINATED SEVERAL SPECIAL PROJECTS INCLUDING:

- EVP/CEO website updates
- trategic planning IdeaScale
- Strategic planning website creation and updates
- 2023 Health Equity Summit website creation and updates
- HSC Marketing and Communications internal survey
- Homeless Coordinating Council webinar support
- Board of Regents HSC Committee meeting technical support
- HSC Newsroom pitch meeting technical and administrative support

2024 STRATEGY

In 2024, the communications division will continue evolving best practices in executive communications strategies. Some ideas include:

- Continue to assess and evaluate the EVP/CEO event review and tracking process to streamline the process while efficiently and effectively gathering information to ensure Dr. Ziedonis is set up for success.
- Implementation of the 2024 EVP/CEO participation request form for internal and external entities to request Dr. Ziedonis to attend and/or speak at various events to provide the EVP/CEO team with as much information as possible in a timely manner.
 - · Along with the launch of this form will be continuing education to internal and external community about the new way to reach out to EVP/CEO office for speaking/attending requests.
- Create a template for convocation events to ensure all appropriate information is gathered, including speaking needs and general topics to speak about.
- · Creating and refining templates to streamline event planning and project management.

INTERNAL COMMUNICATIONS PROGRAM

2023 STRATEGY

The strategy guiding internal communications at UNM Health and Health Sciences revolves around fostering clear and effective communication among staff, faculty, learners, clinicians, and other stakeholders. This includes utilizing various channels to disseminate important information, updates, and initiatives. The channel most often used is listsery communications distributed through Mailchimp. Examples include weekly system-wide newsletters (currently known as HSC Connects), area-specific communications (such as School of Medicine Dean's message), and clinical area newsletters (such as SRMC Briefings, sent twice weekly).

Additional approaches include collaborations with the HSC Newsroom and social media teams, videographers and photographers, and departments/areas in need of internal communications support. The goals of this strategy are to enhance collaboration, keep the community informed, and promote a cohesive and well-informed environment within the health sciences community.

Decisions are made for UNM HSC Internal Communications through a strategic approach that includes:

- · Ongoing Needs Assessment: Identifying the communication needs of different departments and stakeholders within the Health Sciences system, by requesting and receiving updates on a regular
- · Audience Analysis: Understanding the demographics, preferences, and communication styles of the target audience to tailor messages effectively.
- Channel Selection: Choosing appropriate communication channels based on the nature of the message, such as inclusion in system-wide weekly communications, articles and features in the HSC newsroom, area-specific communications, etc.
- Collaboration: Regular engagement with communications representatives and leadership of the various entities throughout the health system, to ensure the unique and shared needs of all audiences
- Consistency and Frequency: Ensuring consistency in messaging, to the best of our ability, and determining the frequency of communication to maintain engagement without overwhelming the audience.
- Communications Tools: Reviewing and assessing technology and tools as needed. For example: Assessing the primary communications platform (Mailchimp) and identifying a platform that better fits the needs of organization (Constant Contact) to improve internal user experience and audience engagement.

For messaging that need to reach the entire Health and Health Sciences community, the HSC Internal Communications Manager typically drives that communication. All SRMC internal communications are also managed via this program. UNM Hospital, Medical Group, Project ECHO, College of Nursing, and the College of Population Health have a dedicated person managing internal communication, but those staff members are closely aligned with MarCom. MarCom continues to assist the School of Medicine and Colle of Pharmacy with internal communication needs due to vacancies.

MEASURING SUCCESS

Internal Communications metrics are currently tracked through Mailchimp. Details are shown and outlined below for HSC Connects, as it is our largest and most far-reaching communication.

Monitor performance

Our second largest communication is the twice-weekly SRMC Briefings. This brand new evolution for SRMC communications is also sent and tracked through Mailchimp, and we are particularly proud of its swift growth and highly successful engagement. The details of those metrics are included in the specific SRMC Internal Communications section, which follows HSC Internal Communications.

Of significant note—SRMC did not have any formalized internal communications methods, platforms, or strategies until a new director of communications was hired. Working with SRMC's CEO/President, the director of communications hired staff and tasked them with creating an SRMC internal communications program that was responsive and helpful to SRMC's leadership, providers, and staff.

In 2023, we were able to cut our number of emails by 50% from the previous year, which is a huge accomplishment. In both communications surveys we've conducted since March 2019, audiences resoundingly requested a reduction in the number of emails they receive every day.

The most recent data (2022) illustrates that as an academic health system, we are ahead of the curve for employee email engagement in both education (28.5%) and health care services (23.7%).

Our open rate took a slight dip, which can be attributed to the significant amount of feedback we received in the 2023 communications survey about HSC Connects being too long to engage with on a regular basis.

We also saw an 8.7% increase in our click rate and a very impressive 37% decrease in our unsubscribe rate. Both statistics point to our audiences being pleased with the efforts we made to reduce the number of emails sent through our listserv.

In examining the increase in click rate, a clear spike is shown in April of 2023. This can be attributed to our highest performing emails, which were sent on April 6 and April 13, 2023. The latter email launched the DEI Climate Survey, and the former featured an extremely popular article on how to navigate allergy season in New Mexico.

In 2023, we also conducted an Internal Communications Survey, with an engagement rate of nearly 500 responses. This is a healthy and typical response rate, especially considering the survey-heavy year.

The details of those survey results are compiled in a separate document and are available to Dr. Ziedonis and his executive team.

SRMC INTERNAL COMMUNICATIONS: MEASURING SUCCESS

The strategy for internal communications for SRMC is to create weekly messaging that aligns with the hospital's values, principles, and behaviors. A key driver of this strategy is SRMC's weekly communication, the SRMC Briefing, which gives staff and providers important information pertaining to day-to-day work, policies, procedures, events, and strategic priorities. The SRMC Briefing also celebrates the successes of SRMC staff and providers.

Jamie's Monday Message

Dear Staff and Providers,

Happy Monday, I hope you all had a great weekend.

Today, is the first Monday of the month, so we are focusing today on our Principles and Koy Behaviors. Principles are foundational rules that govern consequences and are focused on three dimensions: Align, Enable and Improve. Principles inform ideal behaviors, and these are what we also call key behaviors. The more we focus on these ideal behaviors, the better we will be able to design systems that drive ideal behaviors and ideal results.

December Principle: Think Systemically

December Principle: Think Systemically
The principle for the month of December is "Think

Systemically*. This is a principle in the alignment domain. To think systemically means we are focused on the greater organization, not just our individual department. While focusing on department efforts is still critical, we always want to think globally, and at a Health System level in addition to SRMC at the organizational level. The frontline behavior associated with this principle is to work together to improve. For management, the behavior is to align improvements, and for executives, we are to model global thinking.

SRMC Spotlight: Materials Management

They literally walk miles every single day up and down the halls of SRMC, making sure every floor has what it needs to take care of our patients. In recognition of National Health Care Supply Chain Week, this SRMC Spotlight is dedicated to our Matorials Management Toam!

"They come in and they work hard," says Materials Management Director Benny Chavez, "They all go above and beyond and are very dedicated. It's awesome to have a team that's on the same page, that communicates. This has to be one of the best teams I've ever worked with."

The team of six works to make sure SRMC clinicians and staff have what they need.

"We are responsible for providing product to all our floors,"

Chavez says. "We are responsible for shipping and receiving for the OR and we receive all
the product that comes into the hospital for other departments as well."

A Message from UNMH HR: Reminders for Employment at UNMH

A huge thanks to those of you have already logged into Learning Central, completed the online module and accepted employment at UNMH! Remember that you have until the close of business on Friday, Dec. 1, 2023, to affirm your intention to accept UNMH employment. If you have any questions about employment at UNMH, you must reach out to UNMH HR at 505-272-2325 or email HR@salud.unm.edu.

Additionally, UNMH Benefits Open Enrollment started on Wednesday, Nov. 1, and continues through Friday, Dec. 1. This is your opportunity to make benefit elections for 2024. Please view the digital postcard here or click on the image below for additional information about UNMH Open Enrollment.

2023 was an important year for SRMC internal communications. For the first time, the hospital had a person from the MarCom Communications Division dedicated to working with SRMC leadership to develop an internal communications plan. That work started in February with SRMC's CEO/President and her executive leadership team. Eventually a survey was developed and sent to all SRMC staff and providers to weigh in on what they'd like to see in their internal communications. '

On May 8, 2023, the new SRMC Briefing was launched through MailChimp to create both an aesthetically pleasing, professional look and to track analytics. The SRMC Briefing started as a daily communication and then after additional conversations with staff and leadership, evolved to a bi-weekly communication (Monday and Thursday). The Monday communication includes a message from SRMC CEO/President Jamie Silva-Steele which, for the first time ever, created a regular cadence of communication from the hospital's president.

In 2023, the SRMC Briefing was a critical vehicle for communication during SRMC's integration under UNM Hospital's license. In addition to delivering important information, the communication also celebrates the team monthly with Provider Kudos (messages directly from SRMC patients) as well as SRMC Spotlights, which are profiles highlighting the work of individuals and/or teams throughout the hospital.

MAIL CHIMP ANALYTICS MAY 8 - DEC. 22ND, 2023:

From the launch of the SRMC Briefing in May to the end of December, the open rate moved up from an impressive starting point of about 39% to nearly a 46% open rate. On average, 41% of the SRMC audience is opening the SRMC Briefings every week.

Also, in comparison to other MailChimp audiences in UNM Health & Health Sciences campaigns, content within SRMC's Briefing was the second most clicked behind HSC Connects with just over 4,000 clicks between May and December compared to about 5,500 clicks inside HSC Connects.

ALL UNM HEALTH & HEALTH SCIENCE AUDIENCE CLICKS MAY 8 - DEC. 22ND, 2023.

2024 STRATEGY

The internal communications goals for 2024 focus on enhancing collaboration, transparency, and engagement within the organization. This includes but is not limited to:

ENHANCED COLLABORATION:

Foster a collaborative culture by implementing communication strategies that encourage crossdepartmental and interdisciplinary collaboration among the myriad departments, schools, and areas of UNM Health and Health Sciences.

Chief among this goal are two items:

- The full implementation of Constant Contact as our new communications platform, and
- The rollout of The Pulse as our newly revamped weekly communication, designed in response to the feedback we received from the internal communications survey.

EMPLOYEE ENGAGEMENT:

Continue to develop and implement initiatives to boost employee engagement, based on the feedback received from our audiences in the internal communications survey. This may include regular updates on organizational achievements, promoting recognition programs, and opportunities for staff to provide feedback.

WELLNESS AND HEALTH PROMOTION:

Using the surgeon general's report as a guide, communicate wellness initiatives and health promotion activities to support the overall well-being of employees, providing resources and information on physical and mental health.

RESPOND TO DIVERSITY, EQUITY, AND INCLUSION (DEI) CAMPUS CLIMATE SURVEY:

Collaborate with HSC DEI to bolster communication around DEI initiatives, promoting a diverse and inclusive environment, and keeping the workforce informed about related policies, programs, and actions being taken in response to the 2023 Campus Climate Survey.

STRATEGIC GOAL ALIGNMENT AND SUPPORT:

Align internal communications with the broader strategic goals of UNM Health Sciences, ensuring that communication efforts contribute to the achievement of the organization's mission and vision. Support leadership in the development of a strategic communications plan and assist in implementing as needed.

RELATING TO SRMC INTERNAL COMMUNICATIONS, 2024 **GOALS INCLUDE:**

INCREASED ALIGNMENT WITH UNM HOSPITAL COMMUNICATION ON KEY MESSAGING

Moving into 2024, it will be critical that SRMC's internal communication messaging align with UNM Hospital's key messaging for staff and providers. This work began in 2023 during the integration of SRMC under UNM Hospital's license. The goal is to continue to work closely with UNM Hospital's internal communications manager on messaging that affects all hospital staff as well as incorporating UNM Hospital's strategic goals like Right Care 2.0 to ensure that staff from both hospitals are clear on goals and their roles to help achieve success.

SRMC SPOTLIGHT STRATEGY

In 2023 we launched the SRMC Spotlight to highlight the work of individuals and teams at SRMC. Moving into 2024, the goal will be to take a strategic approach to these profiles ensuring we are covering different areas of the hospital in a meaningful way. We'd also like to increase the SRMC Spotlight from one, to two per month (one individual, one team) and include leadership from UNM Hospital so SRMC staff can get to know them as well.

RETURN OF SRMC STETHOSCOOP

As we look towards the evolution of the SRMC Briefing and ways to provide meaningful information, in 2024 the goal will be to consider bringing back a monthly newsletter that includes items like the SRMC Spotlights, Provider Kudos, big events of the month instead of doing those items in separate weekly communications. The goal would be for weekly communications to relay must-have, day-to-day information with more in-depth content going into a monthly newsletter.

PHOTOGRAPHY & VIDEO SERVICES PROGRAM

2023 STRATEGY

In 2023, this program was largely responsible for a number of tasks including providing headshots for faculty and staff across UNM Health and Health Sciences, and providing photography and videography for the HSC Newsroom, creative services, and excutive communications.

Headshots were scheduled one day a week to be taken in the UNM Health & Health Sciences Studio. Each week the schedule alternated between Tuesday, Wednesdays, and Thursdays to provide options to staff and faculty. Departments that wanted to schedule a photography session out of the studio needed a minimum of 20 individuals to sign up and an adequate location to serve as a mobile studio. These sessions were scheduled based on request. Periodically walk-in sessions were scheduled and open to staff and faculty.

Video services were handled in two parts. First, requests submitted through the Happy Fox ticketing system via Project Request page on the UNM Health & Health Sciences Marketing & Communications webpage. Second, video projects could be assigned during our weekly Pitch Meetings to correspond and supplement HSC Newsroom stories.

MEASURING SUCCESS

PHOTOGRAPHY PRODUCTION

HSC Studio Photography

- Individual employee Headshots captured: 537
- Studio No Shows: 58
- Headshot Cancellations: 160

Portrait sessions other than staff/faculty headshots

38 total events were photographed by the Health & Health Sciences Marketing & Communications Photographers.

- 6 of the events photographed were with Dr. Ziedonis
 - HSC Department Visits
 - Department Pizza Delivery
 - Healthcare Workforce Panel
 - Research Annual Report
- 32 events held by a UNM Health & Health Sciences Department

- UNM Pharmacist Melanie Dodd Video
- Social Determinants of Health Video
- SRMC Art Show Video
- Thanksgiving Vaccines and Turkey Giveaway Video
- UNM Blanket Distribution Video
- UNM Gunshot Survivor to Nurse Video

2024 STRATEGY

A key goal in 2024 is to minimize the number of no-show/cancellations and increase availability of studio headshots by half. To do so, the program manager will promote available sessions by pushing out information on digital boards and taking advantage of internal communication platforms.

Additionally, in late 2023 photo and video services were divided between the Marketing and Communications Division due to growing demand of photo/video projects. This evolution has led to creative services projects managed through Marketing and HSC Newsroom content, executive communications, and headshots requests managed through Communications.

2023 SOCIAL MEDIA REPORT

GRAPHICS

- 840 total graphics designed for social media in 2023 (31.1% of all content)
- This content generated 500,000+ Impression, 10,000 + Engagements, 4,000+ post clicks

Campaigns

A campaign is outlined as either a thematic series of graphics, such as "Health Tips," which is consistently promoted throughout the year, or collaborative graphics crafted for specific events or initiatives, such as the "Lobo Diaper Drive" or a series of listening sessions.

UNMCH Facility Dog Fund Calendar Promotion

- BERNCO/UH Listening Sessions
- UNMCH Lobo Diaper Drive
- UNMCH Radiothon
- UNMH Health Tip Infographics
 - 5 Myths About the Flu; Sun Safety, Pool Safety; Where to Go When You Are Sick; 4 Tips for Hosting an Alcohol-Free Party; Gun Safety
- Awareness Days/Heritage Months
 - UNM Health Suicide Awareness Month
 - Resources; What to Do if Someone Opens Up to You; Events
 - Black History Month, Hispanic Heritage Month, Native American Heritage Month, LGBTQ+ Pride Month, Women's History Month
 - Resources, events coverage, videos and staff highlights

WHERE TO GO WHEN YOU ARE SICK It's important to know what level of care adults need.

INSTAGRAM STORY ANALYTICS

Total Instagram Story Posts 2023 vs 2022

- 2022: 487 posts
- 2023: 1,124 posts (130.8% Increase)

Instagram Story Growth in 2023

- 130.8 % Increase in cadence (total posts)
- 629,064 Impressions (155.5% Increase)
- 552.23 Average reach per post (11.2% Increase)
- 31,251 Story Taps Back (164% Increase)
- In 2023, we implemented a strategic initiative to enhance our presence on Instagram Stories. By increasing our focus and cadence on this feature, we made significant progress in expanding our reach and engagement on the platform. Instagram serves as a key channel for brand discovery, with 62% of surveyed individuals expressing heightened interest in a service after encountering it in Stories. Consequently, we achieved a substantially 155.5% increase in our reach throughout the year. Moreover, audience behavior within Stories provides valuable insights. A high exit or skip rate indicates that our content may not be effectively capturing attention. Conversely, back taps indicate that our content resonated with viewers, prompting them to revisit it. We are delighted to report a substantial 164% increase in back taps during 2023. These achievements underscore our commitment to delivering compelling and engaging content on Instagram Stories, fostering stronger connections with our audience and driving meaningful interactions.

Instagram Story Series

- What's Happening This Week (Posted Monday) mornings)
 - 45 weeks covered
 - Highlighting 182 events
- In the News (Posted Friday morning)

- HSC Wellness Art Walk Launch

- Produced 553 Social Media Video in 2023 (18% more than 2022)
 - Record breaking year for video production
 - 6,543,266 Impressions (198% increase)
 - 17,713 Average Reach per post (179% increase)
 - 266,930 Engagements (161% increase)
 - 6,485,230 Video Views (220% Increase)

TIKTOK

Despite being only a couple of years old, UNM Health's TikTok presence made substantial strides in 2023. Throughout the year, UNM Health garnered an impressive 7,718 new followers and achieved a notable 3,737,499 video views on the platform. Notably, three of our top ten posts of all time were posted on the platform in 2023, each surpassing 500,000 views. This signifies a remarkable growth trajectory and resonant engagement with our audience on TikTok.
